Mr. Jones & Mr. Wren,

KLM
8-17-84

- Meeting w E. Rumbergen, Joe , Marlene J.
re: Point Comfort Asbestos case

1969 Dr. BARBER - DOCTOR AT PT. COMFORT
- CONCERNED ABOUT USE OF ASBESTOS IN PLANTS.

- UP till 1969 - NO SAFETY REGULATIONS ESTABLISHED FOR USE OF ASBESTOS OR OTHER HAZARDOUS MATERIALS

1970 - DUST COLLECTION EQUIPMENT

1972 - MACHINE SHOP - DUST COLLECTION SYSTEM AT PLANT

* - SEND copy of 1968 minutes to Claude Scott (mentions standards set for sawing or cutting asbestos).

Safety Standards at Pt Comfort:
1978 - earliest std we could find
- says must wear respirator and proper clothing

Plant Recalls 1973-75 → everyone was working a week in dealing w/ asbestos.

Heavy Exposures at Pt. Comfort:
- Potlining (asbestos layer in potlining)
- Carpenters
- Masons
- Millwrights

Category code

irritant - material 1964 -

OSHA Dec 1971

= Emergency Building

Selected Report = 1964

1964 - Correspondence to Alcoa - from Johns Manville re: irritant effects of asbestos

- Cool to find

- Shows Alcoa acted reasonably

- Tom Bonney communicated this to Plants.
