BETTER SERVICE

Throughout the U.S. qualified motor repair shops are being selected and authorized as Allis-Chalmers "Certified" Service Shops. Each will have trained personnel as well as complete facilities for servicing and repairing Allis-Chalmers motors to original factory-established standards!

"CERTIFIED" Service Benefits You These Ways:
YOU GET FINEST PARTS. "Certified" Service Shops use genuine Allis-Chalmers repair parts — or parts of equal

quality! Each shop is given complete service information, including factory procedure and drawings, if necessary. Result: factory-like workmanship!
YOU GET FINEST SERVICE. Every Allis-Chalmers "Certified" Service Shop has been selected on the basis of its excellent reputation in the community. It's the kind of shop you like to do business with!

How To Get Allis-Chalmers "CERTIFIED" Service:

Right now most Allis-Chalmers "Certified" Service Shops are located in the larger U.S. industrial areas. But they're rapidly expanding. For service, call your nearby A-C District Office, or Authorized Dealer. If we do not have a Service Shop in your locality, we will recommend the one closest to you. ALLIS-CHALMERS, MILWAUKEE 1, WISCONSIN. A 2498

NEW MOTORS AVAILABLE!

Many Sizes and Ratings of Allis-Chalmers Standard Squirrel-Cage Motors from 1 hp up are Now Available from Stock. Call Your A-C Authorized Dealer or District Office.

ALLIS-CHALMERS

One of the Big 3 in Electric Power Equipment—Biggest of All in Range of Industrial Products

Higher Efficiency
On Lower Grade Fuels
Made Available to
Government Heating Plant

Modern heating plant in nation's capital has two water-cooled Taylor Multiple Restart Underfeed Stokers. These units are designed to handle 150,000 lbs. per hour normal steam flow, and 240,000 lbs. per hour peak load. Furnishing steam heating to the Government building system, these stokers offer the ultimate in fuel flexibility.

POWER PLANTS throughout coal burning areas are installing the Taylor Stokers to permit the burning of today's coals with freedom from smoke and objectionable stack discharge.

Designed with simplicity as the keynote, Taylor has lower boiler outages, fewer moving, longer wearing parts. A unique precision pusher stroke control mechanism and better air flow are two more exclusive Taylor features that aid in giving you efficient, low-cost

steam generation and trouble-free operation.

Backed-up by more than 44 years of engineering "know-how," these and other distinctive advantages make Taylor the time-tested, proven, economy stoker for both original and repeat installations.

Before you decide on any fuel-firing equipment for your power plant, see for yourself why the "trend is toward Taylor"—it's the stoker of proven performance.
