First National Bank Building
Canton, Ohio

Attention: Mr. John G. Ketterer

Dear Mr. Ketterer:

I have your letter of October 5th concerning the case of lead poisoning that is coming before the Ohio Industrial Commission at an early date.

In general these cases are likely to take so much of one's time, that I am somewhat loathe to enter into them on account of the pressure of other work which has to be done. On the other hand, I do not like to refuse to give my advice in these cases and I should be willing to see you and to discuss the case with you, and to give you the benefit of such advice as I can offer without binding myself in advance to any further expenditure of time. If you wish to come to Cincinnati for this purpose, I suggest that you drop me a line or wire proposing a date for a meeting. I expect to be here through the entire week.

Very truly yours,

RAK:is

Robert A. Kehoe, M.D.
