DIRECTORS INSPECT MACINTYRE DEVELOPMENT

A group of National Lead Company directors, headed by Fletcher W. Rockwell, president, made an inspection tour on Sunday, Oct. 25, of the Titanium Division's MacIntyre Development, Tahawus, N.Y. which is now in full operation. It was the first such trip that has been made since September of last year when excavation for the mill buildings was still in progress.

Arriving at the rail head at Tupper Lake, N.Y., early in the morning, the party drove first to the ore loading station at North Creek and then proceeded to the mine site where the mining and milling operations were inspected.
