ASBESTOS PRODUCTS

Date
FEBRUARY 16, 1977

This letter to cover one customer and one subject only.

The availability of asbestos products, coupled with OSHA requirements, continues to be an area of concern to B&W.

In an effort to be prepared for potentially increasingly stringent OSHA requirements, a meeting will be held with Garlock representatives on Thursday, March 3, 1977, at 1:30 P.M. The meeting will be held in Conference Room 3-D.

Mr. Ed Connelly, Garlock Sales Engineering, will be giving a presentation and will be available to answer any questions on alternate materials which are currently available as replacements for asbestos.

It is hoped that this meeting will be a step in the right direction and your presence will be greatly appreciated. If you cannot personally attend, please arrange for the representation of your department by someone else.

Please fill out and return the bottom portion of this letter indicating your plans to attend.

Thank you.
