January 24, 1934.

Dr. Robert A. Kehoe,
Laboratory of Applied Physiology,
University of Cincinnati,
Cincinnati, Ohio.

Dear Dr. Kehoe:

We wired you yesterday as follows:

ENTIRE COST YOUR ARTICLE PUBLISHED IMMEDIATELY \$209. IF
PUBLISHED IN REGULAR WAY IN JULY COST TO YOU WILL BE ABOUT
\$125 WHICH IS SIMPLY COST OF EXCESS TABLES AND FIGURES.
LETTER FOLLOWS.

The \$125 if you publish in the regular way is only an estimate
and not the publisher's figures -- it may be changed either way,
but only slightly. I hope you will feel free to request the
manuacript back from us if you feel these figures are too high.
We are very limited for space -- we went 50 pages over our quota
for last year's volume, not counting your four articles, and must
be very careful this year in the space and expense we allot various
authors.

Sincerely yours,

Philip Drinker.

PD.hl

Will defray entire cost of immediate publication
. Confirmation letter following
