buy?

A I asked the person at the auto supply store. I explained what I was doing and said was there a particular file that they had an idea about, and they suggested that I buy this particular file.

Q Okay. And if I recall correctly from your deposition, the filing took about five minutes; is that right?

A That is correct.

Q Okay. Again, how did you determine how long the filing would take?

A Well, I was interested in doing between eight and ten movements or grooves on the disc pad to replicate what you would do if you are doing four disc pads, so we did eight to ten grooves and took about five minutes.

Q Okay. Now, you did that on one disc pad; is that correct?

A That is correct.

Q And that is because you had a limited supply, right?
