

TFE Production

Other Permitted Emission Points	
A3	All other Process Vents From TFE / PTFE Process.
A9	All other Process Vents from ETFE Process.
A10, A11, A12	Gas Fired Steam Raising Boiler Combustion emissions.
A13	Superheated Steam Furnaces combustion emissions.
A15	diesel powered emergency generator emissions
W2	uncontaminated surface and roof water to Hillylaid Pools
W3	overflow of West Effluent Pit in heavy rainfall to Royles Brook.

- ★ Unintentional generation of PFOA
Note: PFOA is not used by AGCCE in the process
- ★ PFOA Emission Monitoring Point – Long Term Data
- ☆ PFOA Emission Monitoring Point – Limited Recent Data

- Emission to Water
- Emission to Air

PTFE & ETFE Production
