

El Paso, Texas
October 5, 1976

Dr. R. D. Putnam
Department of Environmental Sciences
Salt Lake City Office

Pursuant to our telephone conversation of October 4, please
find enclosed the requested sales literature on Refrasil.
This asbestos substitute is presently being used on a trial
basis in the El Paso lab. Test strips have been placed on
counter tops, hot plates and acid storage shelves. You will
be notified as to the long-range results of this and subsequent
tests of Refrasil's applicability in the plant.
