**Subject:** RE: Pellet Fuels/CAA section 111 rule

Why don't we try and set it up as a call-in number? There is possibility I may be able to have Stephen Faehner join, who is head of the Executive Board of PFI and runs a pellet fuel facility. So he could address any specific questions you might have on pellet fuels, etc.

My conference line is:

Ex. 6 - Personal Privacy

Passcode is Ex. 6 - Personal Privacy

If, for any reason that doesn't work, just contact me at the numbers below.

Thanks so much for your willingness to talk on this. We will be very respectful of your time and keep it short and to the point.

Hi Robert,

I'd be happy to discuss. A phone call may be easiest at this point. I have a block of time on Wednesday (4/26) afternoon from 2 to 3:30. Anything work in that timeframe from your end?

Best,

Mandy

**Subject:** Pellet Fuels/CAA section 111 rule

Mandy –

Just reaching out to see if you would be available for a short conversation concerning pending litigation on the wood heater/pellet fuel rule. This litigation is currently being held in abeyance at the D.C. Circuit based on the agreement of EPA and petitioners and without the objection of intervenors.

I represent the Pellet Fuels Institute (PFI); PFI separately challenged EPA's final standards for pellet fuel on the basis that they exceed the Agency's statutory authority under CAA section 111, are arbitrary and capricious and lack a sufficient administrative record. Since the current abeyance only extends until June, it would be helpful to discuss how we might be able to engage the Agency on this matter.

I am available by phone or in person to discuss this matter; whatever works on your end. I realize that your schedule is extremely busy, but believe that it will not take very long to lay out the very substantial issues that we believe are raised by the final rule.
