To the old SHAC Committee, thanks for a job well done. 1983 was a very successful year for SHAC with some action taken on items that had been on the SHAC list for several years.

To the new SHAC Committee, congratulations on your assignment to SHAC. We are looking forward to having a very exciting year working together on SHAC.

We have planned a one day session for Wednesday, January 25, 1984 at the La Quinta Motor Inn in Texas City. This will be a transition from the old to new committee. The two committees will meet together at 8:30 a.m. and after lunch the old committee will leave while the new committee sets direction.

We are looking forward to seeing you at this one day session.

Harry Conrad
