Ms. D. A. McCraw
Senior Specialist/Epidemiology
Shell Development Company
One Shell Plaza
Houston, TX 77210

Dear Ms. McCraw,

I recently learned from Dr. Kirkland that you were named by Shell's Corporate Medical Department to assist in monitoring the CMA vinyl chloride epidemiology study update. Unfortunately, Dr. Kirkland's first communication to me on the subject last year was not received, so you were not included in the small task group.

At present we have three epidemiologists involved and this should provide adequate expertise to insure that the study is properly conducted. However, if you would still like to assist in this activity, please call me (202)-887-1196 and I can arrange to have future meeting notices sent to you.

Sincerely,

Carol R. Stack, Ph.D.
Administrator
Vinyl Chloride Program
