Hi Mandy,

I just wanted to thank you again for your time this morning. I really do appreciate your constructive engagement on issues that are critically important to the biodiesel industry.

Additionally, I completely failed to mention that we are sending over the attached letter to EPA regarding the demonstrated demand destruction in biodiesel as a result of the small refiner exemptions. Nothing you haven't heard before, just providing more data as to the harm that has happened to our industry as a result.

Please let me know if you have any questions.

Thank you, again.

Best regards,

Kurt
