John:

About a month ago, you and I discussed the need for some Divisional direction as to how we should handle the emerging issue of increased asbestosis cases at the South Charleston Plant. Most recently, we have refused a request from the Union for the "specifics" of asbestosis cases that have been recorded as RII illnesses.

Can you or Tom Lawrence give us any guidance.

*Ralph, I think
good thing -
should take lead!
in this effort!
