BRK-223

FROM: *Daniel Almaguer Jr.*
Richard Kramkowski
NIOSH Regional Consultant

SUBJECT: NIOSH Investigation of Place of Employment - Health Hazard Evaluation

Pursuant to Section 20(a)(6) of the Occupational Safety and Health of 1970, the National Institute for Occupational and Health (NIOSH) has received a request to conduct a Health Hazard Evaluation (HETA 84-406), in accordance with the rules and regulations defined in 42 CFR 85, at:

General Motors
Austintown, Ohio

The request concerns nylon resin.

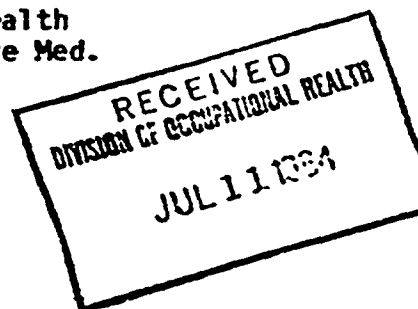

The investigation will commence on or about July 18-19, 1984.

The project officer is:

Richard Hartle
Industrial Hygienist
HETAB, Cincinnati, Ohio
Phone number: 513/684-4374

A copy of the results of this evaluation will be provided subsequent to its conclusion.

cc: Project Officer

Nan Migliozi, Ohio Department of Health-Div. Occ. Health
Thomas J. Halpin, Ohio Department of Health-Preventive Med.

CERTIFICATE OF AUTHENTICITY

I certify that the microphotographics on this roll of film or microfiche are true and accurate productions of records generated by or received by the Ohio Bureau of Workers' Compensation, an agency of the State of Ohio, as required by Ohio Revised Code Section 4123.52 and Section 9.01 which require optimum protection from hazards of accidental destruction of records.

It is further certified that the photographic processes used for microfilming the above records were accomplished in a manner and on microfilm which meets the requirements of the National Bureau of Standards for permanent photographic copy.

William D. Kage
Supervisor, Microfilming Unit
