Dear Jim:

As promised, I am enclosing the position statement from Monsanto which describes our PCB products and gives some additional facts on their alleged appearance in the environment.

I sincerely appreciate your telephone call from Madison letting us know that PCB and Monsanto were being mentioned at the Wisconsin hearings on pesticides. We will certainly be in touch with the DDT task force of the National Agricultural Chemicals Association to learn more about this.

Please let me know if you have any other questions.

Sincerely,

Tom C. Ford
Manager
