Inter-Office Correspondence

To Dr. E. A. Kehoe
From Mr. O. B. Lewis
Subject Amendment to Public Health
Bulletin No. 163
Lead Warning Signs

Cincinnati

New York

Sept. 18, 1946

For your information we are attaching several copies of a letter regarding lead warning signs which was sent to all our customer companies on September 6. Enough copies are attached so that you may send them to your doctors if you wish to do so.

We handled the mechanics of this correspondence, and Mr. Kaley's signature appeared on all the letters. In checking through the file, we note that a copy has not been forwarded to you as yet. Please accept our apologies for this delay.

On September 6 copies of the bulletin were also sent to all our Division offices with a covering letter in which Mr. Frey advised that the bulletin had been sent to our customer companies.

Yours very truly,

/s/ O. B. Lewis
