AMERICAN SMELTING AND REFINING COMPANY

120 BROADWAY

NEW YORK, N. Y. 10005

K W NELSON
VICE PRESIDENT
ENVIRONMENTAL AFFAIRS

November 4, 1974

Mr. S. D. Weaver
Cement Asbestos Products Company
South 28th Street
Van Buren, Arkansas 72956

Dear Mr. Weaver:

Enclosed are a self-explanatory letter and a copy of the Federal Register which contains proposed asbestos regulations that will affect CAPCO. Please note particularly the sections on page 38066 about no visible emissions and the section on page 38068 dealing with dust suppression in connection with asbestos wastes.

Your comments on the impact to CAPCO of the proposed regulations would be appreciated. If significant impact is indicated and we have reasonable objections, we should file our comments formally with EPA through our own or outside legal counsel.

Very truly yours,

KWN/jak
