Dear Bob:

I appreciated very much your letter of June 7th and your comments with regard to your monograph on lead intoxication. I was particularly interested in the experimental work you have started and I certainly hope nothing will interfere with your carrying it to completion.

I received the reprints you so kindly forwarded and want to thank you for these. I had quite a few of them already but am very happy to have the additional ones for my files.

Kindest regards.

Yours sincerely,

A handwritten signature in cursive script, appearing to read "L. E. Hamlin".

L. E. Hamlin, M. D.
