Dear Bobby:

Per your letter and telephone call of last week we will be issuing a new assignment for the Ford set E7SZ-2001-A.

This will be our FMSI 7082B-D431. The D431 replaces the D200 assignment for:

1989-87 Ford Mustang 5.0L, convertible
1988-87 Ford Thunderbird Turbo Coupe

We have not as yet been able to get prints for this new assignment. We are making the assignment with temporary prints showing removal of the locating lug on the inner. Thank you for the information provided. We will be returning the sample inner by separate mailing.

Sincerely,

FRICTION MATERIALS STANDARDS INSTITUTE

May 2, 1988

Mr. Robert R. Bosco
Anstro Mfg. Co., Inc.
238 Wolcott Road
Wolcott, CT 06716

Dear Mr. Bosco:

This is to acknowledge receipt of your application for Licensee Membership and the check in amount of \$600.

Your application will now be reviewed by our Membership Committee and then balloted by the Board of Directors. This normally takes 5 to 6 weeks. When balloting is complete, I will let you know. Everything appears to be in good form, and I would expect the application will be accepted without delay.

Sincerely,

FRICTION MATERIALS STANDARDS INSTITUTE

E. W. Drislane
Executive Director

April 15, 1988

Mr. Bob Bosco, Jr.
Anstro Mfg. Co.
238 Wolcott Road
Wolcott, CT 06716

Dear Mr. Bosco:

This is with reference to our recent phone conversation where we talked about possible Licensee Membership in the Institute. As a manufacturer of hardware used on disc brake pads (clips, insulators, sensors) Anstro Manufacturing would most likely be eligible for Licensee Membership in the Institute. The eligibility clause in our Constitution which I believe would be applicable reads: "Any person, firm.....engaged in the manufacture of brake shoes, or materials for their attachment or assembly, in commercial quantities.....shall be eligible to become a Licensee." As the steel plates for disc pads are considered brake shoes, and you indicated that Anstro manufactures clips and wear sensors for these shoes, it would appear that you are eligible for Licensee Membership.

I've enclosed the following:

List of Membership (Active Members and Licensees)
Constitution and By-Laws
Application for Licensee Membership (2 copies)
EXHIBIT C - Services to Licensees

I believe the "Services to Licensees" reasonably summarizes what is available. In that write-up, you will note that some prints do not have details of shoe dimensions that would be needed to manufacture from the prints only.

To apply for Membership, your company must now be manufacturing these brake clips and parts in commercial quantities. Our fiscal year runs from July 1 to June 30. If you were to apply now, it would take about 6 weeks to process your application, and the Membership would be from July 1, 1988 through June 30, 1989. The Annual Fee for a Licensee is currently \$600. If your company were to apply for Licensee Membership, it should complete the enclosed application form and forward it along with your check in the amount of US\$600 to the Institute. If accepted, that payment would cover Licensee Membership through June 30, 1989. If not accepted, your \$600 would be returned.

Sincerely,

FRICION MATERIALS STANDARDS INSTITUTE

E. W. Drislane
Executive Director
