

H. K. PORTER COMPANY, INC.

THERMOID DIVISION

PORTER BUILDING • PITTSBURGH, PENNSYLVANIA 15219

AREA CODE 412
TEL. 391 1100

June 22, 1972

Down to the sea in ships; we do it every day.

Porter pipe lagging is a shipbuilder's greatest asset. Our pipe lagging cloth is designed to provide fast, dependable, labor-saving installation in low-temperature, non-critical areas on board ship.

Just wet it, apply it and forget it: the adhesive is one-hundred per cent inorganic, and is impregnated throughout the cloth eliminating the need for separate adhesives. Being non-toxic, workmen need not wear protective clothing when installing the cloth.

The attached flyer gives further details, for more information, just fill-in and return the enclosed reply card.

Very truly yours,

Alexander Smith
General Sales Manager-
Asbestos Group
