

1 A Sometimes I would --

2 Q Excuse me?

3 A Sometimes I wouldn't be interested in what I
4 was reading. I would be reading and didn't know what
5 I read. I would wash clothes and whatnot.

6 Besides watching him, when I say watch him,
7 I would look and we had a TV in the room, football,
8 basketball and he wouldn't pay much attention to them,
9 and I knew he was going downhill then for sure.

10 Q By May of 1990, what was your husband able
11 to do for himself at that time?

12 A Nothing.

13 Q And did you have to do everything for him by
14 that time?

15 A Besides when Nollie came up, he would come
16 up when he could to help to wash him, do things, shave
17 him.

18 You know, if he wanted anything, we would
19 try to do it, but he never wanted anything. All he
20 wanted was just to make the pain go away, make the
21 pain go away.
