Dr. Robert A. Kehoe
Kettering Laboratory
College of Medicine
University of Cincinnati
Cincinnati, Ohio

Dear Dr. Kehoe:

My reason for writing this letter is that we have a plant in Springhill, Nova Scotia. This being the first battery enterprise in this area, nobody seems to know much about lead absorption or checking for lead count. Is it possible that the local hospital here could write to you direct and obtain information on the proper procedure for taking either the lead count or urinary test from the employees we have. As you are considered an expert in this field, hence, my reason for writing to you.

Very truly yours,

John G. Surrette

General Manager
