Attention: Joe Kelly

Dear Mr. Kelly,

Enclosed please find a material formulation report regarding your Geon 87438 compound. We would appreciate if you would kindly fill out this report and submit it to the National Sanitation Foundation.

We foresee large potential for this compound in commercial refrigeration extrusions. However, before we can pursue these opportunities, we need the material to be NSF sanctioned for food and splash zone applications.

If you have any questions, please feel free to contact us.

Thank you in advance for your assistance.

Sincerely,

JARROW PRODUCTS, INC.
