Subject: RE: CLEAN AIR ACT

Hi Betty, for the skyline idea, please reach out to the California Air Resources Board or the South Coast Air Quality Management District.

The LA Times also has photos: <http://www.latimes.com/local/la-me-air-pollution-0428-pictures-photogallery.html>

In addition, the air trends report contains information that you may find useful:
https://gispub.epa.gov/air/trendsreport/2017/#naaqs_trends

And this EPA historical site:
<https://www.epa.gov/history/historical-photos-and-images>

Subject: Re: CLEAN AIR ACT

Hi Betty, checking.

On Oct 20, 2017, at 4:10 PM, Chin, Betty <BC2@cbsnews.com> wrote:

Hi there,

This is Betty Chin with CBS Evening News. We're doing a piece on Lancet study focusing on pollution health effects around the world. We are mentioning the Clean Air Act and how pollution has dropped 70 percent.

Do you have any before and after visuals (stills or video) showing the same city or landscape over the years? Does not matter where – just want to show the dramatic change of cleaner air. So we would like to show a skyline with smog (say 45 years ago) and then showing the clean air now.

It's for tonight!

Thanks,
Betty
