Dear Dr. Kehoe:-

We sent you several reports in connection with our problem here after we had talked with you at White Sulphur Springs.

It is my understanding from talking with Mr. Willis that you feel it would be best if your organization did not enter into this problem. I am sorry that we will not have the pleasure of working with you. In view of your decision I shall appreciate it if you will return to us the documents which we sent to you for study.

Very truly yours

J. P. McKee
Ine,
sident-Operations

Dear Mr. McKee:

Had various reports forwarded to me find your office and that of Mr. Willis were returned in one package to Mr. Willis on May 4th. I fear that I should have returned them listed in your letter of April 14th to you, but it seemed simplest to deal with all of the material through Mr. Willis. I'm sorry that this seems to be a result in some delay and inconvenience to you.

71 I regret that I could not feel that it was in the best interest of all concerned to have to be involved in the problem with you. I think, however, that you and Mr. Willis presented to me. I have, however, that you recognized my reluctance to do so, please and understand the reasons. Certainly the latter were considerably attenuated by and I could have made a decision that the situation, particularly the Greenbergs, did my best to make up for it.
