Per A&E reporting, evaluate the improved 150 resin viscosity test and institute as a standard test.

|          |                                                                                                                                                                                |
|----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6/25/70  | Test being evaluated as of 6/24/70. No report at this time.                                                                                                                    |
| 7/25/70  | Q.C. test method number 2-32 has been used to test 150 type resin with good results. More testing is needed to check our reproducibility. Estimated completion date - 8/30/70. |
| 8/25/70  | No report this period.                                                                                                                                                         |
| 9/25/70  | No report this period.                                                                                                                                                         |
| 10/25/70 | No report this period.                                                                                                                                                         |
| 11/25/70 | No report.                                                                                                                                                                     |
| 12/23/70 | No report.                                                                                                                                                                     |
| 1/25/71  | No report this period.                                                                                                                                                         |
| 2/25/71  | No report this period.                                                                                                                                                         |
| 3/25/71  | Test being run as lots are produced on a DAR basis.                                                                                                                            |
| 4/25/71  | No report this period.                                                                                                                                                         |
