LL/JJ-10(1)

LL/JJ-33(2)

Contract Bulletin

BOILER GASKETS FOR THE NAVAL SERVICE

From 1 July 1937 to
30 June 1938

Issued by the Bureau of Supplies and Accounts
Navy Department

Copies to:

Department Distribution:

I, II, IV, V (except (e), (f); VI (Except (e), (f), (g);
VIII (Except (a) (b) (c) (k) (l) X, (c) (9) (20)

4321

1. Following are the contracts and contract conditions for furnishing boiler gaskets for the Naval Service during the fiscal year ending 30 June 1938.

2. Appropriation and Requisition:

Requisition: N.S.A.F. Bureau 9 (1938)

Appropriation: Naval Supply Account Fund, Title 13-X-1.

3. It is understood and agreed that only such unmanufactured articles, materials and supplies as have been mined or produced in the United States and only such manufactured articles, materials and supplies as have been manufactured in the United States substantially all from articles, materials or supplies mined, produced or manufactured as the case may be in the United States shall be delivered pursuant to a contract awarded as a result of this bid.

FEDERAL TAX

(a) Supplies and material required for the exclusive use of the United States and/or for use as fuel auxiliary, ship's stores, sea stores or legitimate equipment on vessels of war of the United States and/or for support of operations within possession of the United States may be exempted from payment of the manufacturer's excise tax imposed by Title IV of the Revenue Act of 1932, as amended. A tax exemption certificate will be furnished to exempt the article from the tax, when tax exemption is claimed by the bidder in the execution of the following stipulations:

The amount of Federal tax paid or payable on articles subject to tax under Title IV of the Revenue Act of 1932, as amended, are (included, excluded) in the prices bid herein, and the bidder (has - has not) claimed and/or (will - will not) claim exemption from, credit for, or refund of such taxes with respect to sales of articles as provided by law.

(b) Prices bid herein include any other Federal tax heretofore imposed by the Congress which is applicable to the material on this bid. Any sales tax, duties, imposts, revenues, excise or other taxes which may hereafter be imposed by the Congress and which are applicable to the material on this bid will be charged to the Government and entered on invoices, and separate from.

(A) Revenue taxes imposed by States, municipalities or sub-divisions thereof on the sale of articles are not applicable to sales to the Federal Government. A tax exemption certificate will be furnished, if required when the following information is furnished by the bidder:

(1) Name of the taxing agency
(State, local, etc.)

(2) Amount of tax

General Specifications for Inspection of Material issued by the Navy Department, September 1, 1935, shall form a part of these specifications, copies of which together with any Navy Standard or Federal Specifications mentioned herein may be obtained upon application to the supply officer of any navy yard, the Navy Purchasing Office New York, N.Y. and San Francisco, Calif. or to the Bureau of Supplies and Accounts. Other specifications should be obtained from the source indicated in the schedule.

METHOD OF ADVERTISEMENT

When a bid was made after newspaper advertisement, award was made to the lowest satisfactory bidder, and so reported to the General Accounting Office on Standard Form 1036 attached to the original contract.

LIST OF CONTRACTORS

Contract NOS-54810 - The Carlock Packing Co., Palmyra, New York
Contract NOS-54811 - Asbestos Fibre Spinning Co., North Wales, Penna.
Contract NOS-54812 - Johns-Manville Sales Corp., 22 E. 40th St., N.Y.C.
Contract NOS-54813 - Euret Magnesia Mfg. Co., Valley Forge, Penna.
Contract NOS-54814 - Asbestos Textile Co., Inc., 165 West Wacker Drive, Chicago, Ill.

SPECIAL CONDITIONS

I. NOTE: NOS-54810

The following applies to the material to be furnished:

Manufactured in the United States from asbestos mined in Canada and rubber grown in the Dutch East Indies. No commercial production in United States of asbestos fibre similar to that contained herein. No rubber grown in United States sufficient to constitute any substantial portion thereof.

II. NOTE: NOS-54811

No commercial production in United States of Asbestos Fibre similar to that contained herein.

III. NOTE: NOS-54812

Crude rubber and asbestos of foreign origin. No commercial production in the United States.

IV. NOTE: NOS-54813

No commercial production in the United States of asbestos fibre similar to that contained in the products to be furnished.

V. DISCOUNTS

Discounts will be allowed for payment within specified number of calendar days on the following contracts:

Contract NOS-54810 - 2 per cent ten days
Contract NOS-54811 - 2 per cent ten days
Contract NOS-54812 - 2 per cent ten days
Contract NOS-54813 - 2 per cent ten days
Contract NOS-54814 - 2 per cent ten days; 1 per cent twenty days.

GENERAL CONDITIONS

I. ORDERS

(a) Under no circumstances should gaskets be ordered by officers on vessels, etc., from the contractors, but they should be obtained in the usual manner by requisition on the supply officers at the various navy yards.

(b) As far as possible supply officers will avoid placing orders for gaskets in small quantities, which would burden the contractors with proportionately large expense in connection with a small shipment.

(c) HOW TO ORDER ODD-SIZED GASKETS - In order that templates can be properly identified with orders placed for gaskets, it is desired that the following instructions be followed in placing orders for these articles:

- (1) Odd-sized handhole or manhole gaskets should be ordered as per template, and the order should give the width, of flange and thickness of gaskets desired, ship's name and requisition number, contract number, and place number, or location of gasket on boiler. An approximate size (inside measurements) may be given on the order, but it should state that the sizes are approximate.
- (2) A tag should be attached to each template when it leaves the Navy Yard for the factory, with the name of navy yard or station printed or stamped on, name of ship for which intended, number of gaskets wanted of that size, width of flange, thickness of gasket, and date of Supply Officer's order to the contractor.
- (3) R/P, sketch, or carefully made metal template of ample thickness (1/8 inch is suggested) should be furnished the contractor when gaskets are ordered. They should be forwarded to the contractor, so that they reach the factory in good condition.
- (4) Contractor shall furnish each of the Bureaus of Engineering and Supplies and Accounts a monthly statement showing orders received and deliveries made during the month.

II. DELIVERIES.

- (a) Delivery to be in accordance with the Conditions governing delivery of supplies to the Navy.
- (b) The gaskets are to be delivered as specified in any desired quantities (not exceeding 10 per cent of the estimated quantity of any one kind of gasket under any one order) shipment to be made within seven days after receipt of order from the supply officer during the fiscal year ending June 30, 1938.
- (c) When the exigencies of the naval service will permit, orders will provide for shipment within the specified number of days after a future date to be stated in the order, thus allowing the contractor in such cases more time for shipment than stated above.

All freight or express shipments for the Naval Torpedo Station, Newport, R.I., shall be delivered f.o.b. Newport, R.I., consigned to the Supply Officer, Naval Torpedo Station, Newport, R.I.

Deliveries for the Navy Yard, Brooklyn, N.Y., shall be made as follows:

Shipments via water carriers shall be consigned to Supply Officer, Building No. 3, Navy Yard, Brooklyn, N.Y. Drayage charges are assessed from steamship dock in Port of New York and drayage service may be arranged for and payment made by contractors.

Shipments via rail carriers, in carload lots, should be consigned to Supply Officer, Building No. 3, Navy Yard, Brooklyn, N.Y., via Market Terminal, Wallabout, Brooklyn Eastern District Terminal. Less than carload lots should be consigned to Supply Officer, Building No. 3, Navy Yard, Brooklyn, N.Y., to nearest railroad terminal. From which points drayage services must be arranged for and payments made by the contractor.

If material is not, as above, but is delivered by lighter or barge, the tariff charges assessed by the railroad for shipping material from the railroad company lighter or barge to the docks at the Navy Yard, Brooklyn, N.Y., is payable by the shipper as a part of the transportation cost.

Deliveries for the NAVAL AIR STATION, CHARLESTON, S.C., shall be made as follows:

Shipments of all materials, supplies, and other property shall be delivered to the freight terminal, Charleston, S.C. Transfer to the Navy Yard from the freight terminal will be arranged by the Government.

Deliveries for the NAVAL AIR STATION, PENSACOLA (Varrington), FLA., shall be made as follows:

Carload shipments for the Naval Air Station, Pensacola (Varrington), Fla., from A Street, Pensacola, to the north end of the Bayou Grande trestle, and for Corry Flying Field, West Pensacola, Fla., from A Street, Pensacola, to Corry Flying Field, are handled by the St. Louis-San Francisco Railway Company. No switching charges are applicable except that a switching charge payable by the shipper, in addition to the tariff rate to Pensacola, is assessed on all carload shipments originating at a non-competitive point served only by the Louisville and Nashville Railroad Company. Carload shipments between the north end of the Bayou Grande trestle and the Naval Air Station are handled by the Government.

Less than carload shipments must be drayed from Pensacola to the Naval Air Station, a distance of approximately nine miles, by private transfer companies, charges payable by the contractor. Prearrangement for drayage is not necessary, as the shipments are handled automatically upon arrival at Pensacola and the contractor is billed direct by the delivery transfer company.

Deliveries for the NAVAL SUPPLY DEPOT, SAN DIEGO, CALIF., shall be made as follows:

Carload rail shipments must be delivered to the Navy Supply Depot, San Diego. All less than carload shipments and carload water shipments must be delivered to the freight station, San Diego, transfer to the Naval Supply Depot will be arranged by the Government.

III. QUANTITIES. The following paragraph appears in contracts concerning quantities:

The uncertain and varying needs of the Navy (or Government) make it impossible to determine the quantity or quantities of the articles and materials described herein that may be required during the contemplated period of the contract. Estimated quantities are stated for information only. It is mutually understood and agreed that the Government will order and the contractor will deliver the quantities of the kinds of articles and materials described in the specifications that in the judgment of the ordering officer may be required during the contract period, except as may be otherwise indicated in the bid. These supplies will be ordered from time to time during the life of the contract in such quantities for delivery in such forms and to such places provided for by the contract as the needs of the Naval Service require. Bids made with the proviso that the total deliveries will not exceed a certain specified quantity will be considered, but the right is reserved to reject any bid which provides that the Government shall guarantee to take any definite quantity.

IV. SPECIFICATIONS:

The boiler gaskets shall be in accordance with "Specification 35-G-26," issued by the Navy Department, September 11, 1933.

The right is reserved to call for deliveries of handhole gaskets in metal packages for foreign shipment to insure their keeping qualities.

In order to fill emergency orders from navy yard, the contractor will at all times be required to maintain at his factory a stock of at least 7 per cent of the square D. and W. handhole gaskets called for.

LIABILITY FOR LOSS. Contractors will be required to assume all losses, and the Government will not be responsible when the gasket dimensions given are not understood, or when the contractor, through an error or insufficient knowledge of naval requirements, furnishes gaskets of the wrong size or shape which prove unsuitable.

CANCELLATION OF CONTRACT. The right is reserved to cancel any contract for any or all navy yards, or for any or all gaskets included therein, and at any time during the existence of the contract, upon 30 days notice to the contractor.

PHYSICAL TESTS:

All physical tests required by the specifications will be made at the works of the manufacturer on samples selected by the inspector. The manufacturer will supply the necessary facilities and labor to make all physical tests.

Contractors will furnish each of the Bureau of Engineering and Supplies and Accounts a monthly statement of the orders received and the quantities shipped during the month.
