

LEAD INDUSTRIES ASSOCIATION

898 MADISON AVENUE

NEW YORK 17, N. Y.

March 21, 1961

SUBJECT: L.I.A. PROJECT 26 (SUPPLEMENTAL)

To Members of the Lead Pigments Technical Committee:

Attached please find inspection reports, after 14 months, from Joplin, Mo., and Chalmette, La., of L.I.A. Project 26 (Supplemental), To Test the Effectiveness of Glidden's Wetting Additive in an Alkyd Base.

Eagle-Picher Co. suggests that this project be continued. National Lead Co. has agreed to provide us with inspection reports from Sayville for presentation at the meeting on March 30, 1961.

Details of L.I.A. Project 26 (Supplemental) are included in the committee meeting minutes of June 30, 1959.

Very truly yours,

David M. Borcina, Secretary
Lead Pigments Technical Committee

P.S. As a limited supply of the inspection reports from Joplin and Chalmette was provided us, copies have been sent only to: Dr. Carrick, M. E. Elmore, Paul Whitford, E. H. Butcow, R. P. Bates, E. K. Zimmerman and R. H. Quenell.
