Subject: PoC from EPA Administrator Pruitt's Office re: Harvey Preparedness

Hi Hector – I want to introduce myself and some of my team members (if you haven't already met) to ensure we are all in contact surrounding hurricane Harvey. I am the head of EPA's public affairs office and EPA Administrator Pruitt's main spokesperson. I would appreciate it if you could keep us updated of what your members are doing to secure facilities around the hurricane, as well as any emergency preparedness activities. And, can you please let me know if you have suggestions for any other associations or companies that I should connect with and reach out to in Texas to provide my contact information?

We will also keep you updated on our end and want to ensure there is open communication and adequate support. My contact information is below, along with my deputy, our regional communications director and our head of crisis and emergency response activities in headquarters. We appreciate any/all updates you are able to provide. Please do not hesitate to reach out to us, and please let us know if you all need support – Liz
