HUMBLE OIL & REFINING COMPANY

LOCATION	FACILITY	DATE	JOB NO.
Headquarters Houston	EXXON NEW ORLEANS	3/21/75	75137

DESCRIPTION OF WORK -

The EXXON NEW ORLEANS will enter Newport News Ship on or about April 1, 1975, for USCG Biennial Inspection, ABS Annual Survey, drydocking and miscellaneous repairs, including major renewal of corroded ballast tank steel. The vessel will be in the yard about 28 days. On completion of repairs, the ballast tanks will be coated to substantially reduce future steel renewals. Several coating methods and types, with major cost/time differences, are now being evaluated. A separate AFE will be prepared for the selected coating work.

ESTIMATED COST DETAIL -

Drydock and Painting	\$100,000
USCG Inspection	50,000
Ballast Tank Steel	150,000
Other Specified Repairs	375,000
Contingency	75,000
TOTAL	\$750,000
