

9/20-21/78

increases on these parts, it might be advisable to back-off on any program if we can obtain sufficient quantities of lining to meet our needs for the next three-and-one-half years.

Some personnel changes have been noted - specifically Mr. Donald Pais is now Director of Production Control, Purchasing & Distribution. Mr. Ronald L. Stump, who had held that position, is now Work Manager. Mr. Donald E. Hackworth, who had been Work Manager, is now in Detroit Headquarters in Production Planning. Mr. Walt House has moved to the Reliability Group. Mr. Jim Sayer has taken Mr. House's spot, covering the GM Overseas Operation project. Mr. William F. Erickson, Assistant Chief Engineer is retiring, effective September 21, 1978.

Mr. Bernie Hirsch was unavailable this date, to discuss the no-grind program.

L. Earle Bretz, Jr.
