Shan

Understand from Tony that you are fully in the picture and share some of our concerns. See attached briefing paper prepared previously for our OP and Chemicals business management.

Suggest that we keep contact about this.

Best regards

Geert de Jong

Geert

I'm in Washington and will be at the meeting in a couple of hours. I've had discussions with Barnaby and others and will try and see how far the Chinese authorities are involved. I'll call you on my return if not before.

Regards

Tony
