

MINUTES
of the
GOVERNMENT TECHNICAL & RESEARCH COMMITTEE MEETING
Joint Session
NATIONAL INSULATION MANUFACTURERS ASSOCIATION
Washington, D. C. December 4, 1962

The meeting was called to order at 1:45 P. M.

The following subjects were discussed:

1. NIMA PROPOSED STANDARD

Mr. Barnhart informed those present that NIMA was working on a proposed standard relating to inorganic thermal insulation.

2. PROPOSED REVISIONS TO MINERAL FIBER SPECIFICATIONS

Mr. Barnhart distributed copies of proposed classifications of mineral fiber products for comments, and explained that NIMA has been working on revisions to Federal Specifications for Mineral Fiber Products (rock, slag and glass).

Following discussion it was agreed that NIMA would send to GSA these proposed revisions by January 30, 1963.

3. PACKAGING REQUIREMENTS IN SPECIFICATIONS

Mr. Barnhart asked the agencies present if something could be done to alleviate some of the packaging requirements appearing in government specifications, and suggested that the NIMA Packaging Committee and government representatives meet for the purpose of discussing this subject. It was pointed out that the Packaging Board of the Defense Department works on this subject continuously. Mr. Burt Tower is to investigate the procedure to contact the Defense Department on this subject and advise NIMA.

ADJOURNMENT

There being no further business the meeting was adjourned.

Respectfully submitted

J. M. Barnhart
