K. V. Kitzmiller, M. D.
Kettering Laboratory,
Cincinnati, Ohio

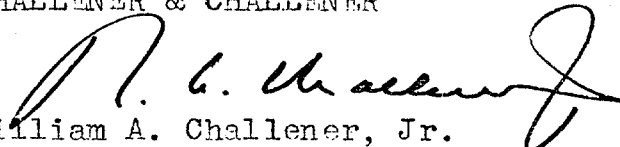

In Re: [REDACTED] v. Johnson Bronze

Dear Dr. Kitzmiller:

When Dr. Kehoe was here he testified in the above case to the effect that lead poisoning does not cause chronic nephritis. I am engaged in writing an argument in support of that position and would appreciate any articles you could refer me to which bear out the same proposition.

Yours very truly,

CHALLENGER & CHALLENGER
