A No.

Q Why not?

A Because case reports do not serve any function other than call attention to certain areas.

If we already have proper epidemiologic studies in that area, then there is really no need for case reports.

Q Okay.

MR. WILLIAMS: Your Honor, may I have Dr. Wong step down?

THE COURT: You may. Where do you wish him to step down to?

MR. WILLIAMS: Right over here in front of the jury. It will just take me a second to set up here, Your Honor.

THE COURT: Mr. Williams, if you could move that back perhaps about a foot and a half, perhaps it could be visible to the parties and everyone else.

MR. WILLIAMS: Sure.

Is that sufficient, Your Honor?

THE COURT: Yes.
