YLE HOME TO BUILD

Building

sulting Engineer

use atmosphere is not lost in the
w lines.

This home is equally impressive
out in a mass of trees and bushes
d is one of the most popular basic
signs in many districts.

Many changes, of course, might
suggested by those who have
ain requirements to fit their
lividual needs. The roof could
dily be designed to present the
es of a hip roof or if desired the
y modern flat roof could be
plied with a very pleasing effect.

many ways during the past few years, and methods to make the job
weeks we have stressed the fact
that most phases of home construc-
tion and repair are much better
done by professionals. In this col-
umn we reiterate.

Consultation with your building
supply dealer before starting a job,
whether it is a new book case or a
new house, usually will save both
money and headaches.

The dealer is he has been in
business to his trade, he knows from practical experience
much more about the problems in-
volved than the average layman and
he is more than eager to pass this
information along.

What you are going to do and

easier.

Quality materials generally will
be recommended. Although first
cost is slightly higher, top quality
materials are better investment
than poorer grades and are an
economy in the long run. The deal-
er doe snot recommend top-quality
goods merely to push up the bill.
He is an integral part of the com-
munity and wants to see it grow
and prosper. For that reason he is
firmly against jerry building and is
eager to work out plans for the best
interests of his customers.
