VAZ

Co
Mn } depend on salts used

sol. of -

can't ans.

Hexane

< 10 ppm OK

Rob't Barrows

Tobs S. McKelly

will be removed from fed list

old tests heavily contam. = B

naphthalenes

will not get B - -

a - is not a carcinogen

doubt would get breakdown at 170 - 185°

N38212

Barnes dg.

Neoprene A

0.5% Neoprene A JUN 5 1974

not sig. detes @ 15°C E.E.S.

will check

ALD - 1000 mg/kg
-670 mg/kg

Captan - soln MDA and NaCl complex

news rem animal studies

data in lit. on MDA - inconclusive

reported as carcin'g rats by 1 worker

tests redone by Dunlop -

say if its is carcinogen it

is a moderate

Bayer - not carcinogenic

at levels tested

long history of use - no problems

with humans

powerful jaundice produce

toxic to liver

if grinding -

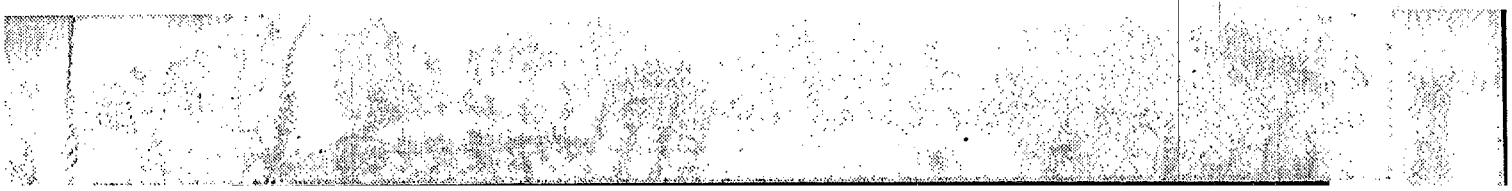

should wear chem suit - air supplied

plastic suit

possibility
