

NAPA's got it.

All the U-joint numbers you need to handle all the calls you get every day.

All the C.V. joint numbers, too.

The most complete line in the industry as a matter of fact. Including NAPA numbers for most passenger car and truck U-joints, NAPA Constant Velocity joints, boot kits, shafts and half shafts for U.S. and

import front-wheel-drive cars. Even a NAPA line for construction and industrial equipment, and a wide selection for agricultural and truck-mounted P.T.O.'s.

Nobody beats NAPA on quality, either. With high-strength steel crosses, case-hardened bearing cups, and machining that meets or actually exceeds O.E. standards. Tough enough to be backed by a lifetime limited warranty.

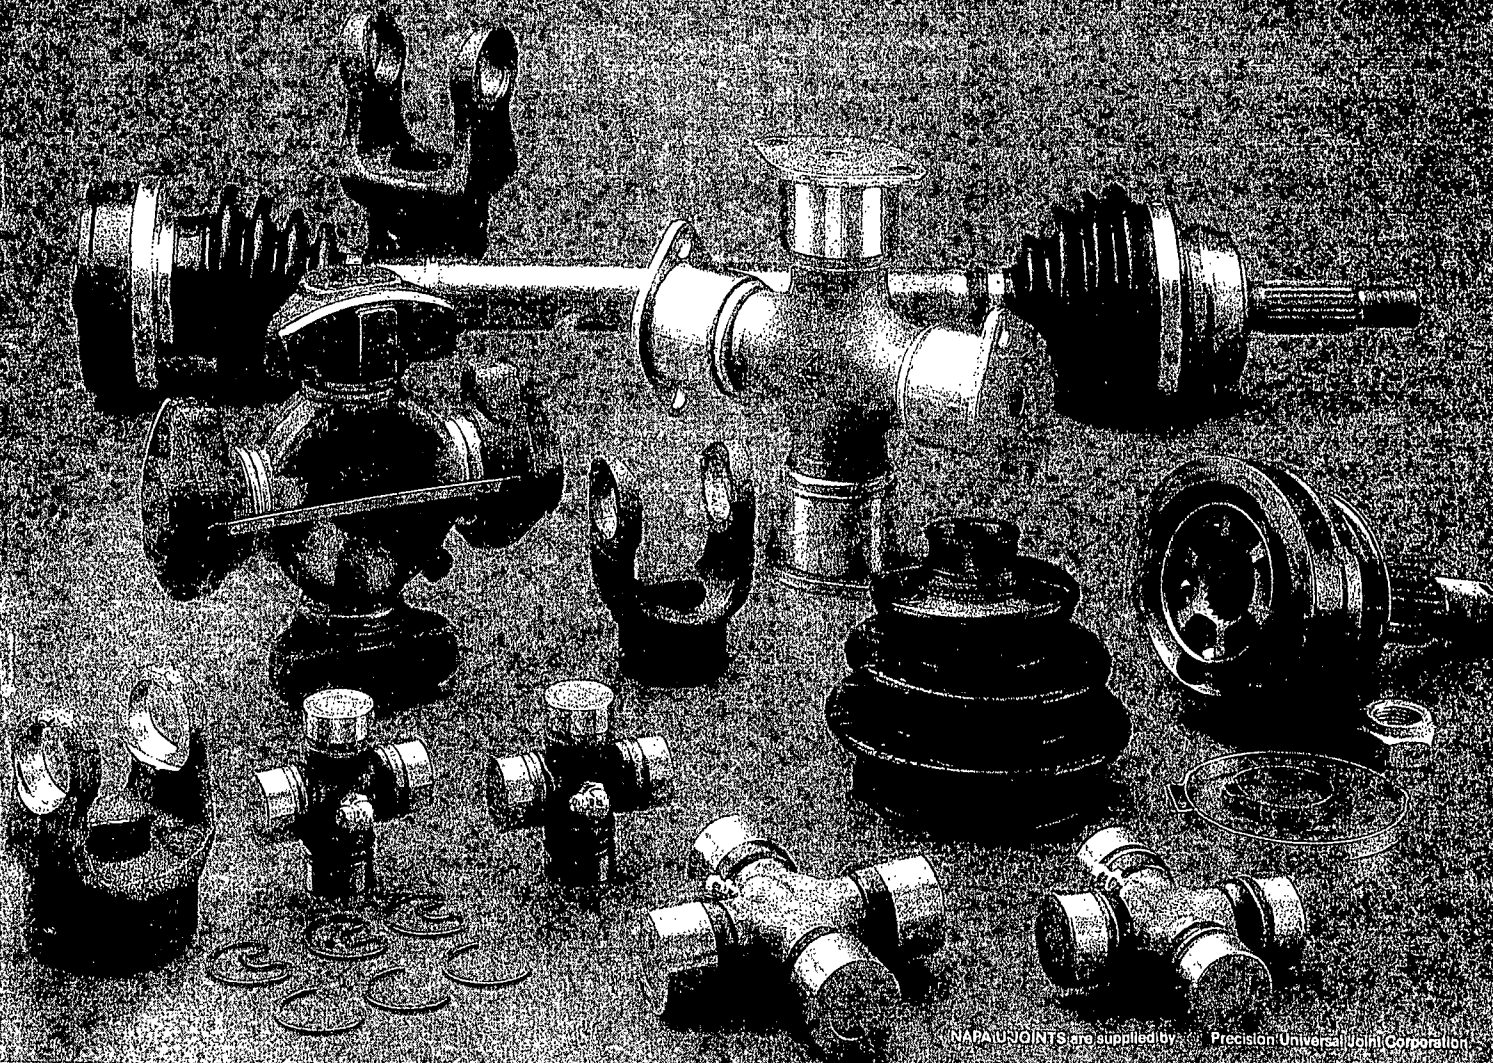

Check us now for all the latest NAPA special promotional programs, catalogs, sales aids and more. Or ask your own direct NAPA U-joint factory representative—a professional ASE-certified specialist you can call on any time you want. Serving U is what we're all about.

U-JOINTS

New lifetime limited warranty

U name it.

NAPA U-JOINTS are supplied by Precision Universal Joint Corporation
