PROTECTION FOR PRODUCTION

ASBESTOS GLOVES AND MITTENS

The correct choice of heat protection depends on the intensity of the heat to be handled. All of the following styles have proven themselves under the most severe conditions. However, for jobs involving the handling of comparatively lower temperatures, leather reinforcement adds appreciably to the wearing quality. All asbestos gloves are made in standard lengths of 11", 14" and 23". Information on asbestos mittens will be furnished on request.

No. 851—14" Asbestos glove. fleece lined for added protection and comfort.

No. 852—14" Asbestos glove. fleece lined, leather reinforced palm and thumb.

No. 853—14" Unlined asbestos glove. leather reinforced palm, fingers and thumb.

No. 854—14" lined asbestos glove. Asbestos reinforced palm and thumb for greater heat protection.
