

1 died of lung cancer.

2 Down on the bottom.

3 All insulations are dusty, and insulators
4 seldom complain except when the dust is particularly
5 irritating to them.

6 Based on presently available data, GPL-400
7 is not as detrimental to the health as is Kaylo. It
8 might be advisable for Bob Davis to something a
9 fabrication dust comparison between Kaylo and GPL-400
10 using the method of Union Carbide.

11 This should be helpful to have before we go
12 to the GPL-400 production.

13 That is it, Your Honor.

14 THE COURT CLERK: What was the number of
15 that one again, please.

16 MR. SMITH: OCF-68.

17 THE COURT: 68.

18 MR. MCGOWAN: May I read where counsel left
19 off?

20 THE COURT: Go right ahead, please.

21 MR. MCGOWAN: Johns-Manville denies this is
