NEWSBRAKE

ASBESTOS-FREE BONDING SEGMENTS

- We are now able to offer a range of flexible, non-asbestos brake linings for bonding to shoes.
- A new formulation based on years of experience as an OE-supplier in Europe and North and South America. Its history can be traced back to the 1940's where wartime shortages dictated the development of alternatives to asbestos.
- Similar formulas are OE at Volvo, Ford, and Volkswagen.
- This is a first class material.
- Several months of successful testing to SAE standards for Original Equipment complemented by thousands of miles of normal driving allow us to offer this to you with complete confidence.
- Competitively priced.
- Quiet.
- Low wear rates.
- Everything you could ask for. Don't miss out.
- Suitable for U.S. cars and imports.
- Duo Servo or leading/trailing brakes.
- All four wheels, or rears only.
- Call us now for more information.

The logo for Abex, featuring the word "Abex" in a stylized, bold, sans-serif font. The letter "A" is particularly large and has a unique shape, with the "b" and "e" following in a similar bold style.
