

THE RUSSELL MANUFACTURING CO.

Incorporated 1934

Middletown, Conn.

ENGINEERING OFFICE

November 2, 1948

Mr. Vandiver Brown,
Johns-Manville Corporation,
22 East 40th Street,
New York, New York

Dear Mr. Brown:

I have your letter of October 27th containing data on the Saranac Laboratory asbestos dust experiments and find these results most interesting.

As you will note in my letter to you of February 15, 1944 Mr. G. M. Williams, our President, was at that time on a leave of absence for the duration of the war. Since 1945 Mr. Williams has again been with us in his active capacity as President.

I discussed this matter with Mr. Williams yesterday and will be glad to follow the results of these experiments as they progress.

As these were initiated a good many years ago, I will appreciate receiving from you information relative to the distribution of cost as originally agreed upon. I will return this data to you within a few days and will try to have a representative present at the meeting on Thursday, November 11th, at 12:30 P.M.

Very truly yours,

T. E. Russell, Jr.,
Vice President
