Re: Talc

Together with our letter of July 5 we sent you milled samples of ALCO and ALFA by UPS. Tomorrow UPS will pick up a sample of unmilled BETA.

We can supply about 1,000 mtpm of the unmilled material in the quality of your choice.

We trust these qualities will satisfy the quality conditions for your request for 3/5,000 mt.

We are confident our price will be competitive on these high quality talcs.

We look forward to your response.

Best regards,
KF Metals & Minerals

David Kwiat
