SUBJECT: INQUIRY LIST FROM
1967 CHEMICAL SHOW

To Members of the Lead Industries Association, Inc.:

Attached is a list of inquiries we received at the 31st Exposition of Chemical Industries which was held in the New York Coliseum November 27 -- December 1, 1967.

The list is arranged in alphabetical order by geographical location. It is further broken down into categories according to subject of inquiry, thus if one person asked for several things, his name would appear more than once on the list. These inquiries have all been answered and the names placed on our mailing list.

Our total number of individual inquires was 431.

A breakdown of inquiries follows:

Chemical Construction and Tank Linings.	82
Ultrasonic Cleaning Devices	97
Architectural Applications.	48
Paints and Pigments	25
Radiation Shielding	8
Organolead Compounds.	8
Lead Abstracts.	12
General Information About Lead.	55
Lead Magazine	143

A photograph of our exhibit is attached.

Very truly yours,
