| Compound                               |                |        |
|----------------------------------------|----------------|--------|
| Acryl                                  | K-7149 - (160) |        |
| Ammonia                                | K-16358 -      |        |
| $\alpha$ -Naphthylthiourea             | K-2452 -       |        |
| Aramite                                | K-8903 -       |        |
| Arsenic acid                           |                |        |
| Benzal chloride                        | K-10133 -      |        |
| Benzotrithiolide                       | K-15958 -      |        |
| Benzoyl chloride                       | K-2937 -       |        |
| Benzyl chloride                        | K-10135 -      |        |
| Cadon                                  | K-12457 -      |        |
| Carbon tetrachloride                   | K-2516 -       | [1988] |
| Chloralene                             | K-5503 -       |        |
| Chloromelom (m.a.s.c.)                 | K-85607 -      |        |
| Chlorobenzene                          | K-11072 -      |        |
| Chlorophenol                           |                |        |
| Chlorophenol                           | K-81496 -      |        |
| Dialate                                | No #           |        |
| 1,2-Dichloroethane                     | K-6117 -       | [1988] |
| p-Dichlorobenzene                      | K-1523 -       |        |
| 2-Dichlorophene (1,2-)                 | K-1985 -       | [1988] |
| 2,4-Dichlorophenoxyacetic acid esters  |                |        |
| D.P. Dichlorophenoxytrichloroethane    | No #           |        |
| Dialate (Kaltene)                      | DR-0140-8132 - |        |
| Dieldrin                               | K-7446 -       |        |
| Ethylene dibromide                     | K-1915 -       | [1988] |
| Ethylene oxide                         | K-1708 -       | [1988] |
| Ethylene thiourea                      | K-8712 -       |        |
| Fluometuron                            | DR-0047-6459 - |        |
| Formaldehyde                           | K-2514 -       | [1988] |
| Heptachlor                             | K-6201 -       |        |
| Hexachlorobenzene                      | K-2688 -       | [1988] |
| Kepon (chlorocone)                     | DR-0163-5661 - |        |
| Lindane (gamma-hexachlorocyclohexane)  | K-4300 -       |        |
| Malathion                              | K-11520 -      |        |
| (4-chloro-2-methylphenoxy) acetic acid | K-5261 -       |        |
| Methyl parathion                       | K-9033 -       |        |
| Mirex                                  | K-49387 -      |        |
| Nitrofen                               | K-83483 -      |        |
| Parathion                              | K-6265 -       |        |
| Pentachlorophenol                      | K-8191 -       | [1988] |
| Phenoxy acids                          |                |        |
| p-Phenylphenol                         | K-1024 -       |        |
| Piperonyl butoxide                     | K-6183 -       |        |
| Sulfide                                | No #           |        |
| 2,3,7,8-Tetrachlorodibenzo-p-dioxin    | K-66681 -      | [1988] |
| Tetrachloroethane                      | K-75008 -      |        |
| Thiourea                               | K-3143 -       |        |
| Triphenyl                              | K-5944 -       |        |
| Trichloron                             | No #           |        |
| 2,4,5-Trichlorophenol                  | K-2777 -       |        |
| 2,4,6-Trichlorophenol                  | K-720 -        |        |
| 2,4,5-Trichlorophenoxyacetic acid      | K-4568 -       | [1988] |
| Vinyl chloride                         | K-1711 -       | [1988] |
