SUBJ: HMAC COMMENTS ON HM-181

Attached is a copy of HMAC's petition for reconsideration of HM-181. It's worth reading (some of it) to see what problems and questions other companies have had.

SUBJ: TEXT FOR CUSTOMER LETTER ON MSDS CHANGES

VISTA

As we discussed, the text below, or something similar, should be used in a letter distributing LPA-MSDS's with the new Tech Data Sheets.

"It is Vista's policy to provide information on the properties of our products to assure they can be handled in a safe and healthful manner by our customers. This effort includes providing updated Material Safety Data Sheets to our current customers, when revisions are made. The MSDS attached for LPA - _____ has been revised in format and content. Please note that changes have been made in sections 2 and 5 of the MSDS. These changes do not reflect information that change regulatory classifications of this product nor should they significantly impact your handling practices. Please provide this updated MSDS to all current users of the product. If you have questions regarding this information, please contact your Vista Technical Sales Representative.

You need to contact Jackie O'Connell well in advance of the mailing to assure we have sufficient copies of the MSDS's.
