

INTEROFFICE MEMORANDUM

PLAINTIFF'S EXHIBIT

SH-3541

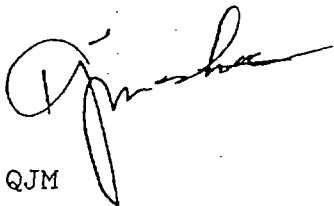

MAY 9, 1989

FROM: Q. J. MACHAC
TO: S&IH STAFF
SUBJECT: AUDIO-VISUAL RESOURCES

Over the past several months, in her "spare" time, Lynn Wright has put together the attached list of audio-visual resources we now have in the S&IH storeroom, 1075 OSP.

These resources are not really set up as a formal library for use by others. We have no objection to someone from S&IH using them, or even loaning them to others to use.....if the person removing them from 1075 will take the time to make a record on our checkout log -- a steno pad on the shelf with the films -- and then scratch it out when the resources are returned. There are multiple copies of some of the programs; please ask anyone who wants a permanent "keeper" copy to discuss it with me.

We have requested a copy of Corporate Medical's audio-visual resource list, and will share it with you when received. In addition, we frequently preview other audio-visual programs and may be able to suggest a source for a particular topic; give me a call if you have a special need.
