

(Drislane - Purcell)

1 While you were executive director of the FMSI, do
2 you know whether or not that Institute ever disseminated any
3 information reflecting any similar statement?

4 A Yes. We made a statement recommended procedures
5 for handling asbestos brake linings.

6 MR. FRIESTEDT: Excuse me. What's the date of
7 this document?

8 MR. PURCELL: Don't know.

9 THE WITNESS: I can't see any date on it.

10 MR. FRIESTEDT: No date on it?

11 MR. PURCELL: No, there is no date on it
12 apparently.

13 MR. FRIESTEDT: Thank you.

14 BY MR. PURCELL:

15 Q Is it the position of the Institute when you left
16 as executive director that anyone working on brakes needs
17 protection from asbestos?

18 A Yes.

19 Q When did the Institute first develop that
20 viewpoint?

21 A I believe it was, again I believe it was in 1978
22 when we put out that little blue book that I told you about
23 from which we then developed or got the one page insert in
