Subject						Date			
ASBESTOS & HEALTH						9/17/86			

John, attached is a copy of the revised AIA/NA booklet "What You Should Know About Asbestos and Health." It has been redone to conform to the new OSHA training requirements and might be of assistance to you in compliance with those requirements.

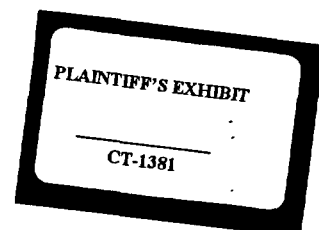

In the event you want to order some for the plants, I am also attaching an order form which you can use to get them.

Also enclosed, for whatever use you might want to make of it, is a Bureau of Mines 1985 Minerals Yearbook on Asbestos.

RECEIVED OCT 10 1986

Cann
